I have a brother, he doesn't have a real dream but when he does, we must take it serious. He dreamt about dad's death, and it happened. Then he called me two months ago, that he had a dream that I died. Immediately, I rebuked it...but it keep reoccurring in my mind Until I attended the program TELEOSIS...and when Pastor Sam talked about God's deliverance concerning someone who's afraid of death, I knew d message was for me, and what came to my mind was that, God had fought my battle for me..and I don't need to be afraid anymore. Praise God!
