

AN ACCIDENT? NO, NEVER!

by Samuel Adeosun - Friday, October 05, 2018

<https://dhm.com.ng/you-are-not-an-accident/>

There are many people who are being passed by because others don't see what is in them. But God has shown me what's in me, and I know it is in you too. My job is to stop you and say: "Can you see what's in you? Do you know your potential? Do you know that you are not just someone born in a ghetto over the hill? There's a wealth of potential in you."

A sculptor sees so differently! God has designed your life in a unique way but that uniqueness will not be appreciated if you don't see differently just like a sculptor. What you see about yourself determines attract to yourself.

Insight like that of a sculptor can only be seen in the Bible. When the world dumps and rejects you and you land on the garbage heap of the world, God will always walk along to pick you up. He looks deep within you and sees a person of great worth.

It is therefore important to note that, God's dealing with you is not based on your current state. Rather, His dealings in your life is as a result of what He's designed your life to be and what your future holds.

So, don't ever let anybody throw you way. You are not a junk because when God looks at you, He sees things that everybody else ignores. you are worth so much that Jesus went to Calvary to salvage and reclaim you. The spirit of God connected to your spirit is the only true judge of your worth. Don't accept that opinions of others because they do not see what God sees. And to accept what God sees about you is to begin to live in that reality.

When God looks at you, He sees things that everybody else ignores.

Affirmation:

I am what God says I am. I am not a mediocre! I am not an accident and neither am I a junk. I am a fortified edifice of success, an epitome of wealth, a trial blazer. Therefore, all things are working for my good because I am called according to God's plan. Oh glory to God.
